## REPORT OF CHIEF ENGINEER.

During the year ending March 1, 1894, there have been ten alarms of fire, viz:

March 20, 1893, 12:30 p. m., A. T. Cowles' blk., High St.; very small damage.

May 10, 12:15 p. m., pine woods, Junct. near Norrington's house.

June 3, 2 o'clock p. m., Sankee house near depot; damage slight.

June 11, 2 o'clock p. m., woods near ball ground.

June 19, 1:15 o'clock a. m., stump fence, Hanover street

July 4, 12:30 o'clock a. m., pile of lumber near Fair View.

July 8, 5:15 o'clock p. m., Scott Leighton's barn, Bible Hill.

The firemen responded promptly and succeeded in saving house, shed, etc.

Aug. 1, 7 o'clock a. m., Mr. Morgan's, West Claremont; no alarm.

Dec. 14, 10:45 o'clock, a. m., building occupied by Kimball's bakery; slight damage.

Jan. 10, 1894, 7 o'clock p. m., town hall; no damage.

Jan. 13, 2:15 o'clock a. m., H. S. Osgood's house. Damage to house and furniture about twenty-five hundred dollars.

Feb. 4, 9:45 o'clock p. m., car house at Claremont Junction; no alarm.

There have been seven hydrants added to the hydrant system during the past year, making fifty-two in all, at a rental of eighteen hundred and twenty-five dollars per annum.

There have been applications for hose to be kept in different sections of the village, which your engineer feels would be bad policy for the town to establish. If one section had them all sections would have the same right to have them. This would necessitate a large outlay for hose or would scatter what we have so that they would not be available at any one point. With the fire alarm, there has been no complaint from any one part of the village but that the hose have been prompt at the fire with experienced firemen to handle them. Should there be no more hydrants added there will be needed eighteen hundred and twenty-five dollars for rental of same and about eight hundred dollars additional to pay the fire department.

G. H. STOWELL, Chief Engineer.

# Report of Trustees

## OF STEVENS HIGH SCHOOL FUND.

The amount of this fund in the hands of the Trustees is the same as reported last year, \$10,000, with interest at six per cent. from March 1st, 1893. The income for the year 1893, \$600, will be collected and paid into the town treasury as soon as it shall be needed.

The Paran Stevens Legacy of \$40,000 still remains unpaid. There has been some advance toward a settlement of the Stevens Estate since our last report, and there was good reason to expect a final decree during the present month, but the sudden and unexpected death of Arthur Leary, executor under the will of Henry Leiden Stevens, and trustee for Mary Fiske Paget, has postponed a decision until a new executor and trustee is appointed after notice, and this requires additional time as some of the parties are in Europe. There is now apparently good reason to expect the payment of the legacy within the coming year. If however anything should arise to further postpone payment, it is not suggested from any quarter that there can be any doubt as to its ultimate payment with interest.

The case now stands in order for trial and will undoubtedly be reached at an early day.

### THE ALDEN LITERARY PRIZE FUND,

consists of the real estate bequeathed by the late Mrs. Mary J. Alden, and \$1,059.21, deposited in the Sullivan Savings Institution. We have received during the last year for rent \$144; for interest, \$36.33; and paid for prizes \$120; repairs of Alden house \$22.29; water rent \$8; and care of the Alden lot in the cemetery \$2.

# Report of Health Officers.

TO THE INHABITANTS OF THE TOWN OF CLAREMONT :

The undersigned Health Officers of the town, hereby submit the following report :

The Health Officers were appointed by the Selectmen on the 17th day of June, 1893, and were duly qualified and entered upon their duties June 19th.

Dudley T. Chase was appointed chairman and Edward F. Houghton secretary.

The Board established rules and regulations relating to the public health, which were approved by the Selectmen, recorded in the Town Clerk's office, posted in two or more public places in town and published in both the papers in the village.

Printed copies of the rules were distributed in most of the public places in town and given to citizens generally.

The Health Officers have received over one hundred and thirty complaints and in nearly every case the complaint was well founded.

In some few cases verbal notice was sufficient to cause the nuisance complained of to be abated, but in most of the cases it was necessary to issue a written notice and order, which was personally served on the offending party by one of the Health Officers or by the Constable.

Occasionally a second notice and order became necessary and in five cases prosecutions were commenced for wilful neglect and violation of the rules and the laws of health.

Two of the parties, after proceedings were commenced, came forward and complied with the requirements of the Board, and the complaints were withdrawn. In one instance the respondent was fined ten dollars and costs, by the justice, which has been paid. Two other cases were tried in the justice court and fines of five and twenty dollars were imposed with costs, and appeals were taken to the trial term of the Supreme Court, held in October last, and at the request of the respondent were continued to the April term and are now pending.

The most general complaint has been the want of proper drainage and it has become a serious question whether the compact part of the village can be kept in a healthy, sanitary condition without public sewers.

The great increase of aqueduct water used in the village, and the consequent increase of drainage from sinks, water closets and stables and the great number of cesspools will soon make the soil a hotbed of corruption and we look for the early arrival of some epidemic disease, that will decimate the population, unless some measures are taken immediately to establish a system of sewerage in the compact part of the village.

All sink drains and water closets should be connected with a public sewer and no privy vault or cesspool should be tolerated. All stables should be provided with dry earth for absorbing the liquids therein and all stables should be thoroughly cleansed and the manure removed beyond the limits of the village at least once a week during the summer months.

No water from wells in the compact part of the village should be allowed to be used for domestic purposes, as we are well assured that such water is already polluted and unfit for use.

We cordially thank the portion of the community that has given countenance and support to the Health Officers in the discharge of their unpleasant and always disagreeable duties.

We are convinced that, had all parties complied promptly with the reasonable requests of the Health Officers, all the expenses of counsel and attorney fees would have been saved and the personal charges of the Health Officers would have been reduced one-half.

The expenses of the Board have been as follows :

Services of Health Officers,	\$ 381 93	
Less Witness Fees received,	6 93	
	<hr/>	\$375 00
Counsel and Attorney fees,	\$ 67 00	
Less fines and costs,	11 50

# REPORT OF Stevens High School Com.

---

Stevens High School has just entered upon its second quarter of a century, its twenty-fifth anniversary having been passed at the close of the last school year. During this period nine hundred and eighty-two different pupils have been enrolled as members of the school, two hundred and seventy-two of whom have graduated, and ninety-five have taken a collegiate course. Many of the alumni are occupying positions of honor and usefulness in remote parts of the world; but it is a pleasant fact that a large proportion of them have settled in our own midst, are among our most worthy citizens, and are giving character to our town and reflecting honor upon the school.

The teachers from first to last, almost without exception, have been men and women of rare ability, morality and learning, who have left a lasting impress for good on every hand.

The committees during these twenty-five years have been composed of many of our best citizens, who have manifested much zeal and interest in the school's welfare. The inhabitants of the town have also shown their appreciation by being unusually ready to respond cheerfully to calls for financial aid. The school has been yearly broadening its scope till to-day it stands on a higher plane than ever before. The course of study has been quite largely extended to meet the requirements of recent advancements made by most colleges, no less than to give opportunity for all our pupils to receive a more broad and thoroughly practical education.

This has made necessary the raising of the standard for admission. It is gratifying to this committee that the Board of Education, teachers and pupils in the lower grades are manifesting a cheerful determination to aid in this advanced movement. Great praise is due the Grammar school for successful efforts in this direction. It is hoped that the standard will continue to rise in future years till the schools in Claremont are equal to any in the land.

The number of pupils in attendance the past year has reached higher figures than in any previous year in the school's history, the whole number in the fall term being one hundred twenty-two, and in the winter term one hundred nineteen. There has also been an advanced showing with respect to average attendance, punctuality, scholarship, deportment and other conditions which indicate the upward trend of the school.

To meet these growing wants, the corps of teachers has been increased; but even now the force is too small to allow of admitting to our curriculum several much desired departments.

The present board of teachers are as follows:

M. C. Smart, A. M., Principal and teacher of Ancient Languages.

Miss Nellie C. Lewis, teacher of Mathematics.

Miss Florence K. Bailey, teacher of History and English Literature.

Miss Jane R. Cutler, teacher of Sciences.

Madam C. E. Bauer, teacher of Modern Languages.

Miss Addie M. G. Walker, teacher of Drawing and Music.

The Committee refer with special pride to these very able instructors.

Mr. Smart has been four years at the head of the school. He is a man possessing broad and advanced thought, ripe scholarship, industrious habits, clear and forcible methods in imparting knowledge and superior executive and disciplinary qualities. Under his leadership the school is becoming broader in scope, higher in aim, more thorough and practical in method, and is to-day recognized as an institution of high standing and much promise.

Miss Lewis graduated from Stevens High School in 1882, since which time she has been almost continuously employed as teacher. She is popular, energetic, thorough and conscientious, and, being an efficient disciplinarian, has done a noble work for the school.

Miss Bailey, also a graduate of this school, and later of Smith College, is thoroughly equipped for a broad field of educational work. She has been teacher here nearly four years and has filled various positions in a very able and pleasing manner.

Miss Cutler has been employed only one year, but has proved herself a teacher of good abilities. She is a graduate of Smith College, class of 1892. Her work has been highly satisfactory.

Madam Bauer is well known in this community as a lady of rare culture, and a popular teacher of the French and German languages. Her advantages have been of unusual excellence and her experience large and successful. Her instruction in French in this school has been full of profit and enjoyment to her large and enthusiastic classes.

Miss Walker adds another Stevens High School graduate to our list of successful teachers. She is managing the departments of

drawing and music alike creditable to herself and pleasing to her pupils.

In presenting this brief report the Committee desire to impress upon the citizens of the town the great merit and far-reaching influence of this school. It is worthy of our pride and zealous care. Few schools of its grade in any town are superior to this, or doing better work in fitting for college or in preparing for useful business life.

In the general prosperity which has come to Claremont the last decade, Stevens High School can be brought well to the front as an active factor in the progressive march.

But, notwithstanding the work which is of a high and satisfactory character, these times and advancing conditions are already calling for enlarged facilities. It is probable that at no distant day additional rooms will be required to accommodate the growing number which are asking for admission. The laboratory needs modernizing. The heating, ventilation, drainage and water supply will demand attention. More books of reference and apparatus of various kinds are imperatively called for. A course in German will be necessary to meet the requirements for entering most colleges. Elocution and Oratory should have a special teacher. A thorough Business Department would supply a much needed and useful feature.

In closing, it is our pleasure, no less than our pride, to commend to the attention of all friends of the school the very neat and valuable catalogue just issued by the Stevens High School Alumni Association. It is a model of its kind, reflecting great credit upon the promoters, and cannot fail to greatly interest the reader.

OSMON B. WAY, Chairman of Committee.

Claremont, Feb. 28, 1894.

# Report of the School Board

## OF THE TOWN SCHOOL DISTRICT,

### FOR THE YEAR ENDING FEBRUARY 15th, 1894.

---

We respectfully submit the following report for the fiscal school year ending Feb. 15, 1894. Excellent work has been done in two of the primary schools and marked improvement has been made in the others.

Good work has been done in the intermediate schools. The return of Miss Dow to the Grammar school has ensured excellent work there.

The Draper Corner school has done excellent work under Miss Bailey.

The outside schools have accomplished as much, we think, as could have been expected with the numerous disadvantages under which they are conducted.

During the past year at least five steps in advance have been taken.

1st. A course of study for the primary, intermediate and grammar schools has been prepared, at considerable labor on the part of the teachers, and when completed should be published.

2nd. A teachers' association has been formed, which holds its sessions at least three half days each term, which all teachers are required to attend, and at which, in accordance with prior appointment, discussions are held on methods of instruction in the various branches of school work. Many valuable hints are received from this interchange of views, and much good will come from it.

3rd, Drawing has been taught in all the village schools.

4th. Our road agent, Mr. Lewis, has built concrete side walks from Broad Street to the High Street school house and from Pleasant Street to the Grammar School.

5th. An excellent school house is in process of construction at West Claremont.

We desire to suggest other needs of our schools.

1st. Concrete walks should be extended to each of the

village school houses. We long ago built suitable side walks to the principal places of business, to the depot and to the High School—all for the use of adults, who are protected by heavy shoes and rubbers, while we force our young children, thinly shod and helpless, to wade through mud and slosh and sit in the school room all day with wet feet.

2nd. It often happens that some school is closed for a few days or a few weeks on account of illness, resignation, or other unavoidable absence of a teacher. One additional should be employed who is competent to temporarily take charge of any of our rooms including those of the high school and when not substituting, be employed in giving aid to any pupils needing special attention to enable them to hold their places in their classes; and there is very great need of work in this line in almost every class. Such substitute is regularly employed in many towns, we are informed.

3rd. At no other places in town is a system of public sewerage more essential than at our village school houses.

4th. As an experiment we would suggest closing the schools at Slab City, Bartlett Division, on Bible Hill and in the Long Division, providing transportation for the pupils attending them to the village which could probably be satisfactorily done at less expense than the cost of maintaining schools at these places and without materially increasing the cost of the village system, we believe better results would be obtained, and if so the same policy should be adopted at West Claremont by bringing there in the same way the pupils now attending the Junction school, the Paddock Division and Grannis Division, and establishing a graded system. If parents would visit both systems of schools and observe the different progress made by pupils in our graded village schools and those equally bright in the outside schools they would insist on this action at once.

The old fashioned mode like the spinning wheel and hand loom did excellent work in their day, but new and improved methods in education as in art, science and manufacture invariably drive out the old.

5th. The proper management of our schools require vastly more time and much more needs the constant exercise of care, attention and, we might say, professional skill, than is realized by those who have not undertaken it, and should not be thrust upon those burdened with other business upon which they rely to support themselves and their families.

Men fit for the position are sure to have other and remunerative employment which must be neglected while their time is taken in school matters practically without compensation, or else duties of the office be neglected.

Your school board is compelled to perform for a mere pittance what demands the continuous work of a faithful official, a man thoroughly trained in his profession, who would earn, and should receive a salary of at least \$1200.00. This is not good policy, and is not followed in business enterprises nor in other lines of the public service.

Try the same methods in the management of your banks, your corporations or even in the election of your ever self sacrificing Town Fathers and what results would you expect or get?

Money is freely raised, and properly so too, for street lighting, road making and various other things that enhance the value of real estate or contribute to the convenience and comfort of our citizens, while a policy of retrenchment and economy is pursued in regard to the education of our children—the most important and responsible duty with which we are charged and in which we should be the most liberal. The present and the future of our town depends more upon the education and intelligence of its citizens than upon its hoarded wealth, the condition of its streets or the convenience and accessibility of its houses.

As before stated our schools are doing good work, yet they are not accomplishing for our children what they might, and would with the aid of an efficient superintendent.

5th. We know all these things cost money and we earnestly urge all tax payers who feel that our expenditures must not be increased to consider whether retrenchments might not be made in other matters and the money appropriated for these purposes instead and then vote accordingly at our town and school meetings. If we cannot buy all we want let us spend our money for what is most needed.

The Roll of Honor, the accounts of the treasurer and distribution of the Tappan Fund and the usual statistical tables are appended so far as they could be completed, the change in the fiscal year making it impossible to finish them at this time.

## State of New Hampshire.

To the inhabitants of the School District of the town of Claremont qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district, on the seventeenth day of March, 1894, at two o'clock in the afternoon, to act upon the following subjects:

FIRST—To choose a moderator for the ensuing year.

SECOND—To choose a clerk for the ensuing year.

THIRD—To choose a treasurer for the ensuing year.

FOURTH—To choose a member of the School Board for the ensuing three years.

FIFTH—To choose a member of the School Board for the ensuing year.

SIXTH—To hear the reports, of auditors, committees, or officers heretofore chosen and pass any vote relating thereto.

SEVENTH—To see what sum of money the district will raise and appropriate to furnish the new school house at West Claremont, to pay for the school house lot, and for grading the same.

EIGHTH—To see what sum of money the district will raise and appropriate for general repairs of school houses.

NINTH—To see what action the district will take in relation to securing a superintendent of schools, and raise and appropriate money therefor.

TENTH—To choose agents, auditors and committees in relation to any subject embraced in this warrant.

Given under our hands at said Claremont, this second day of March, 1894.

EDWARD F. HOUGHTON,	} School Board.
HERMON HOLT,	
O. C. SARGENT,	

I hereby certify that the following returns of Births, Marriages and Deaths are correct, according to the best of my knowledge and belief.

FRANCIS F. HASKELL, TOWN CLERK.

# VITAL STATISTICS.

In compliance with an act of the Legislature passed June Session, 1887, requiring "clerks of towns and cities to furnish a transcript of the record of births, marriages and deaths, to the municipal officers for publication in the Annual Report," we submit the following:
